Medical letter

To Who it may concern

Re: **Sabitha Vettikkattil-Muhammed**
DOB: 31/05/1984

Primary Diagnosis:

Acquired brain injury from right ICA aneurysm occurred on 05/12/23
-Complicated by vasogenic infarction

My name is Dr Soyoung Kim and I am a physician in Rehabilitation Medicine (MCNZ 68125) working at ABI Rehabilitation which is a regional multidisciplinary inpatient rehabilitation unit for patients with brain injuries.

Sabitha has been under my care since 17/01/24 when she was transferred to ABI from North Shore Hospital. She has been making slow but steady progress with her rehabilitation.

Due to her significant cognitive impairment as a result of brain injury, Sabitha is medically unfit to work in any form of employment for a minimum for 6 months. Sabitha requires having another medical review to determine her fitness to return to work at the end of 6 months.

Should you have any further questions or concerns please do not hesitate to contact me.

Kind regards,

Soyoung Kim
